

BlueCross BlueShield of Illinois

Same Treatment.
Lower Cost¹.

Benefits Value Advisor

A one-call solution that can help members find quality health care and save money.

Benefits Value Advisor (BVA) provides value to both employer and employee:

- Measurable savings for both the employer and employee
- Communications support to promote the program
- Tracking of call volume, scheduled appointments, transfers to care management clinicians and conversations on cost and quality
- Claims analysis on potential savings opportunities versus actual claims savings
- Help with pre-certification and scheduling appointments

Optional features to help ensure the greatest potential for savings:

- Call requirement — members must call a BVA prior to predetermined procedures
- Outbound calling — BVAs will call members when data received from doctors indicate diagnostic imaging is needed

Smarter health care decisions can result in big savings. Call your Blue Cross and Blue Shield of Illinois Account Representative for more details.

1. BVA offers cost estimates for various providers, facilities and procedures. Lower pricing and cost savings are dependent on the provider or facility of your choosing.

Member communications and information from BVA are not meant to replace the advice of health care professionals. Members are encouraged to seek the advice of their doctors to discuss their health care needs. Decisions regarding course and place of treatment remain with the member and his or her health care providers.
